**Press Statement issued by Shri Ananthkumar, Minister of
Chemicals & Fertilizers and Minister of Parliamentary Affairs**

I congratulate ISRO and the entire team for the historical launch of Polar Satellite Launch Vehicle(PSLV) which put a record 104 satellites into space. This fantastic achievement demonstrates the capabilities of ISRO in handling complex issues professionally and also providing world class satellite launching services to various countries and agencies. This also showcases the low cost innovation capability of ISRO and is a sterling example of "Make in India". The dedication of the entire team of ISRO is the guiding force for this great feat.

Once again I salute the ISRO team for holding the Indian Flag high in the world and wish them great success in all future projects.
